

**ASML**

**In color**

# ASML: In color

A coloring book for creatives,  
engineers, tech enthusiasts  
and everyone in between

# Dedication

We dedicate this book to all our employees who bring color, diversity and life to ASML. We can't complete the picture without you – your commitment, thirst for knowledge, creativity and ambition keeps ASML at the forefront of innovation.

Whether it is designing a technology that enables our future or painting a masterpiece, creativity can change the world. Here's to those who think differently, follow their passion and make our lives a little brighter.

# Coloring key

**4**

## **Circuit city**

ASML changes the world, one nanometer at a time. From connected cars and cities to wearables, semiconductor technology is embedded throughout our society.

**5**

## **iHuman**

We bravely challenge boundaries and question the status quo because we believe that tomorrow can always be better than today. We connect humanity and technology.

**6**

## **A glimpse of home**

We're an international company with Dutch roots. Although the Netherlands is known for its tulips and windmills, ASML is helping to put it 'on the map' as a high-tech hub.

**7**

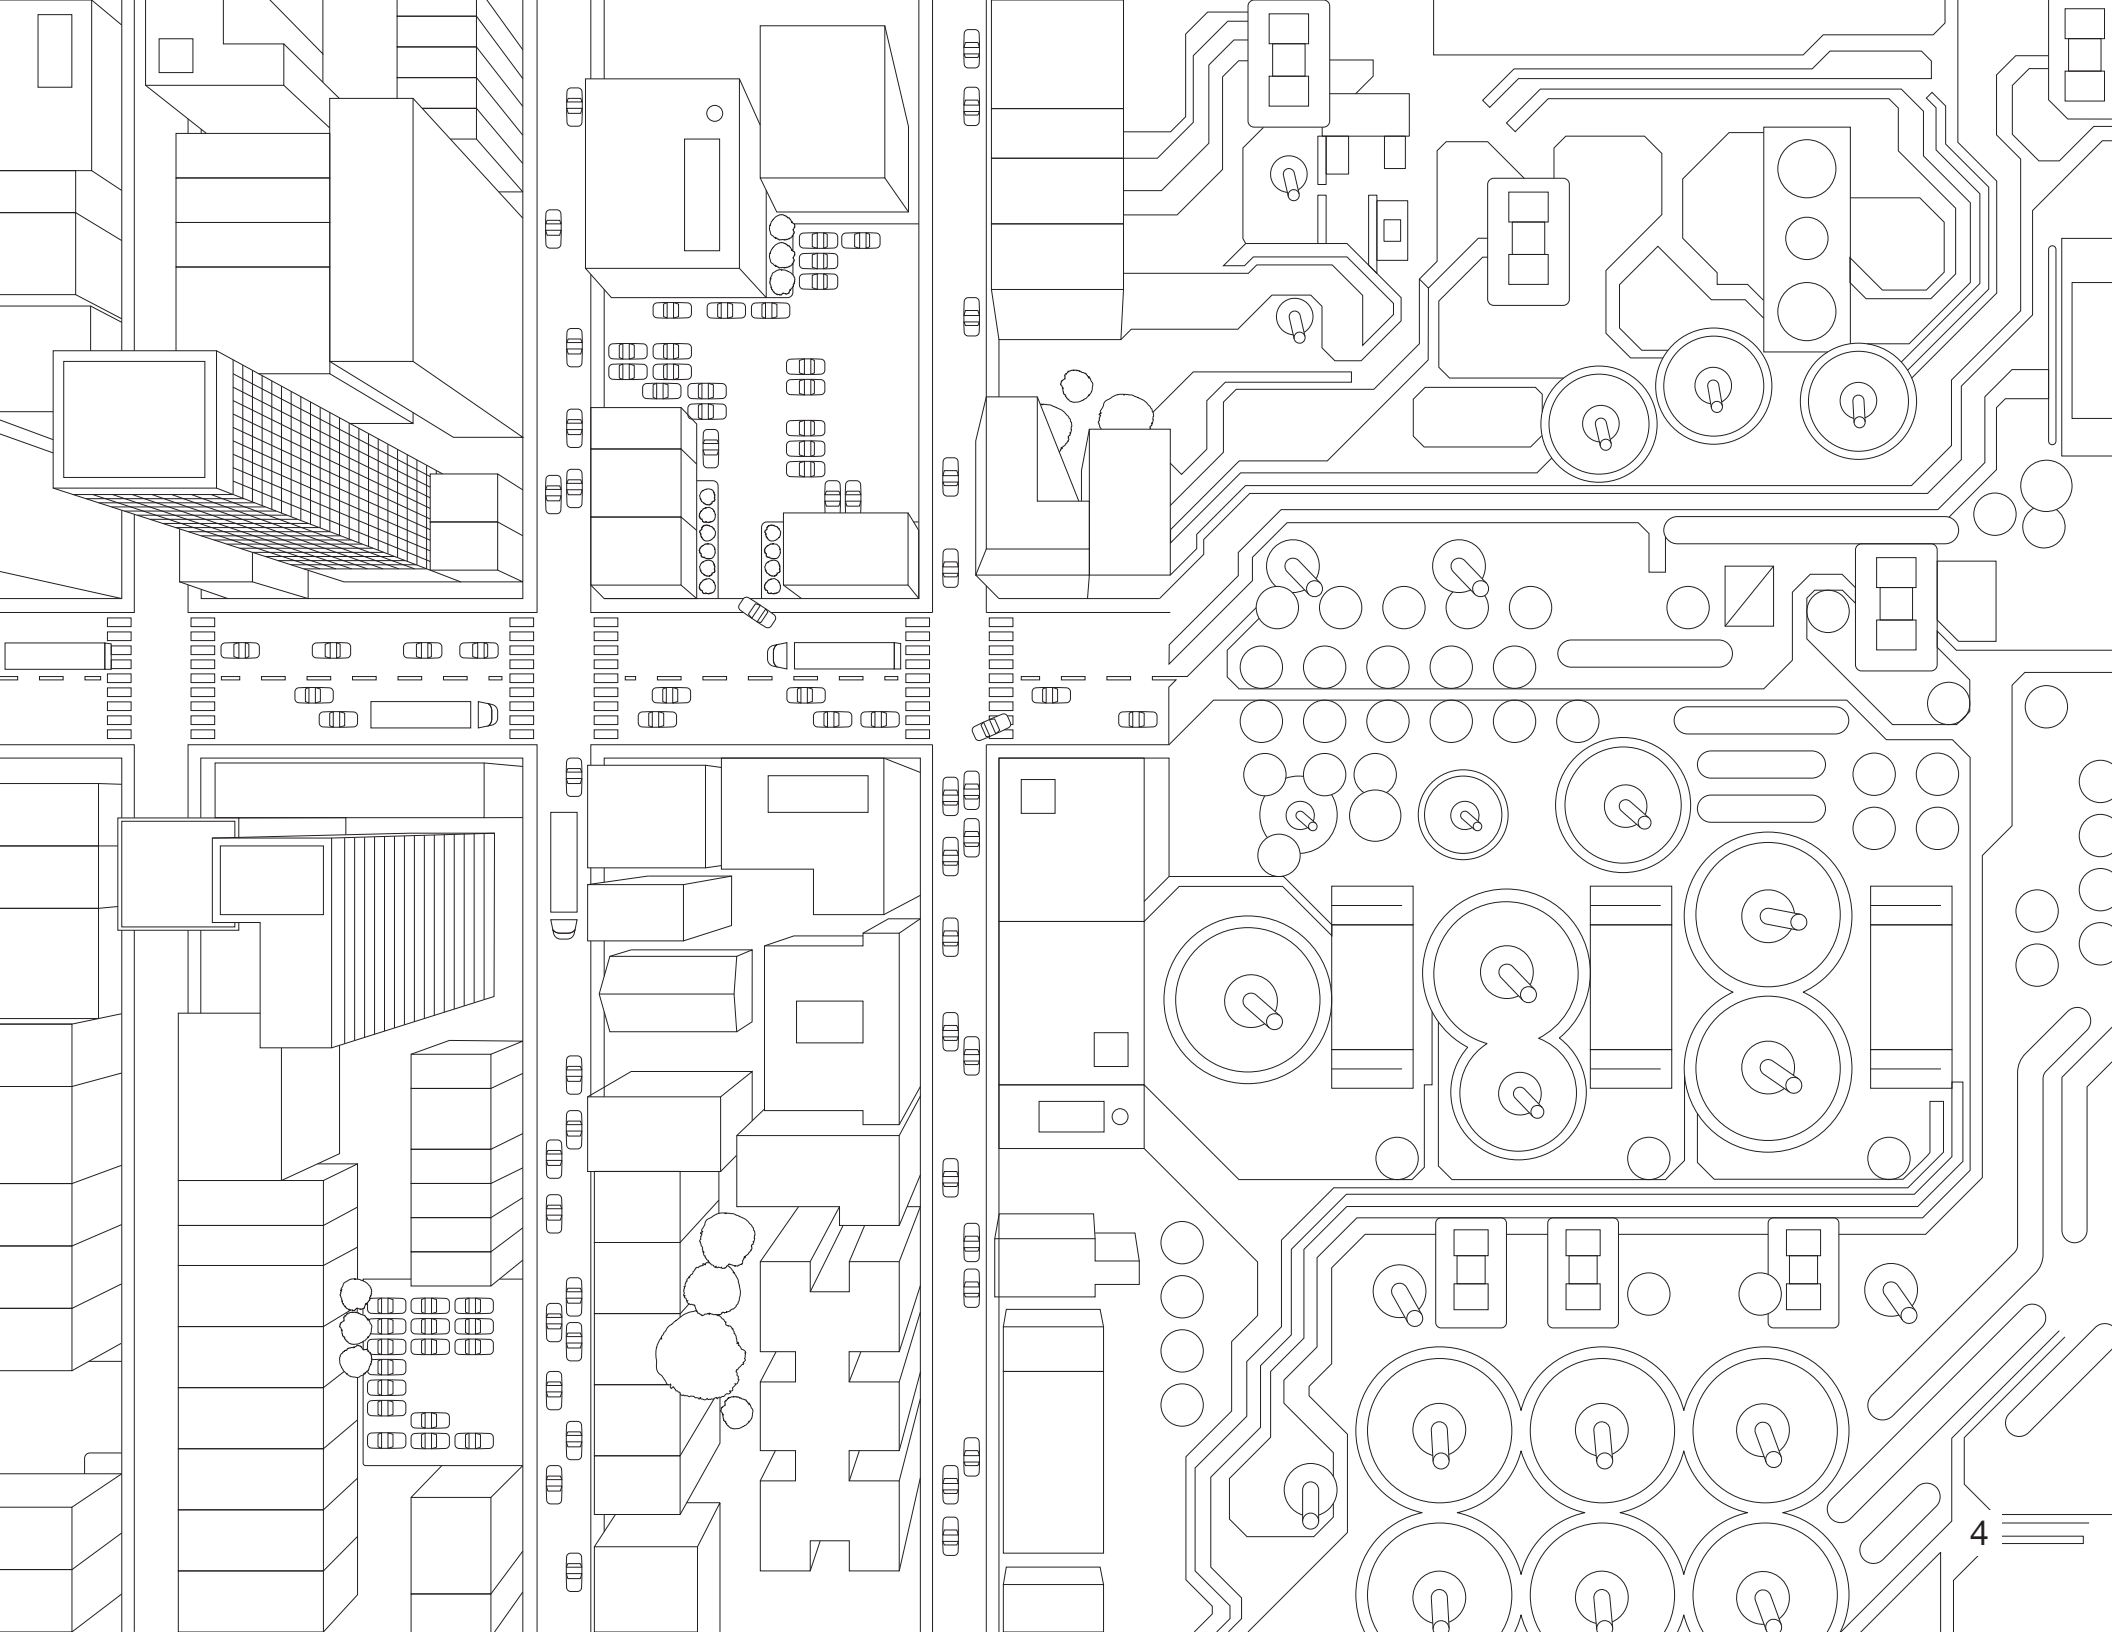

## **Powering the world**

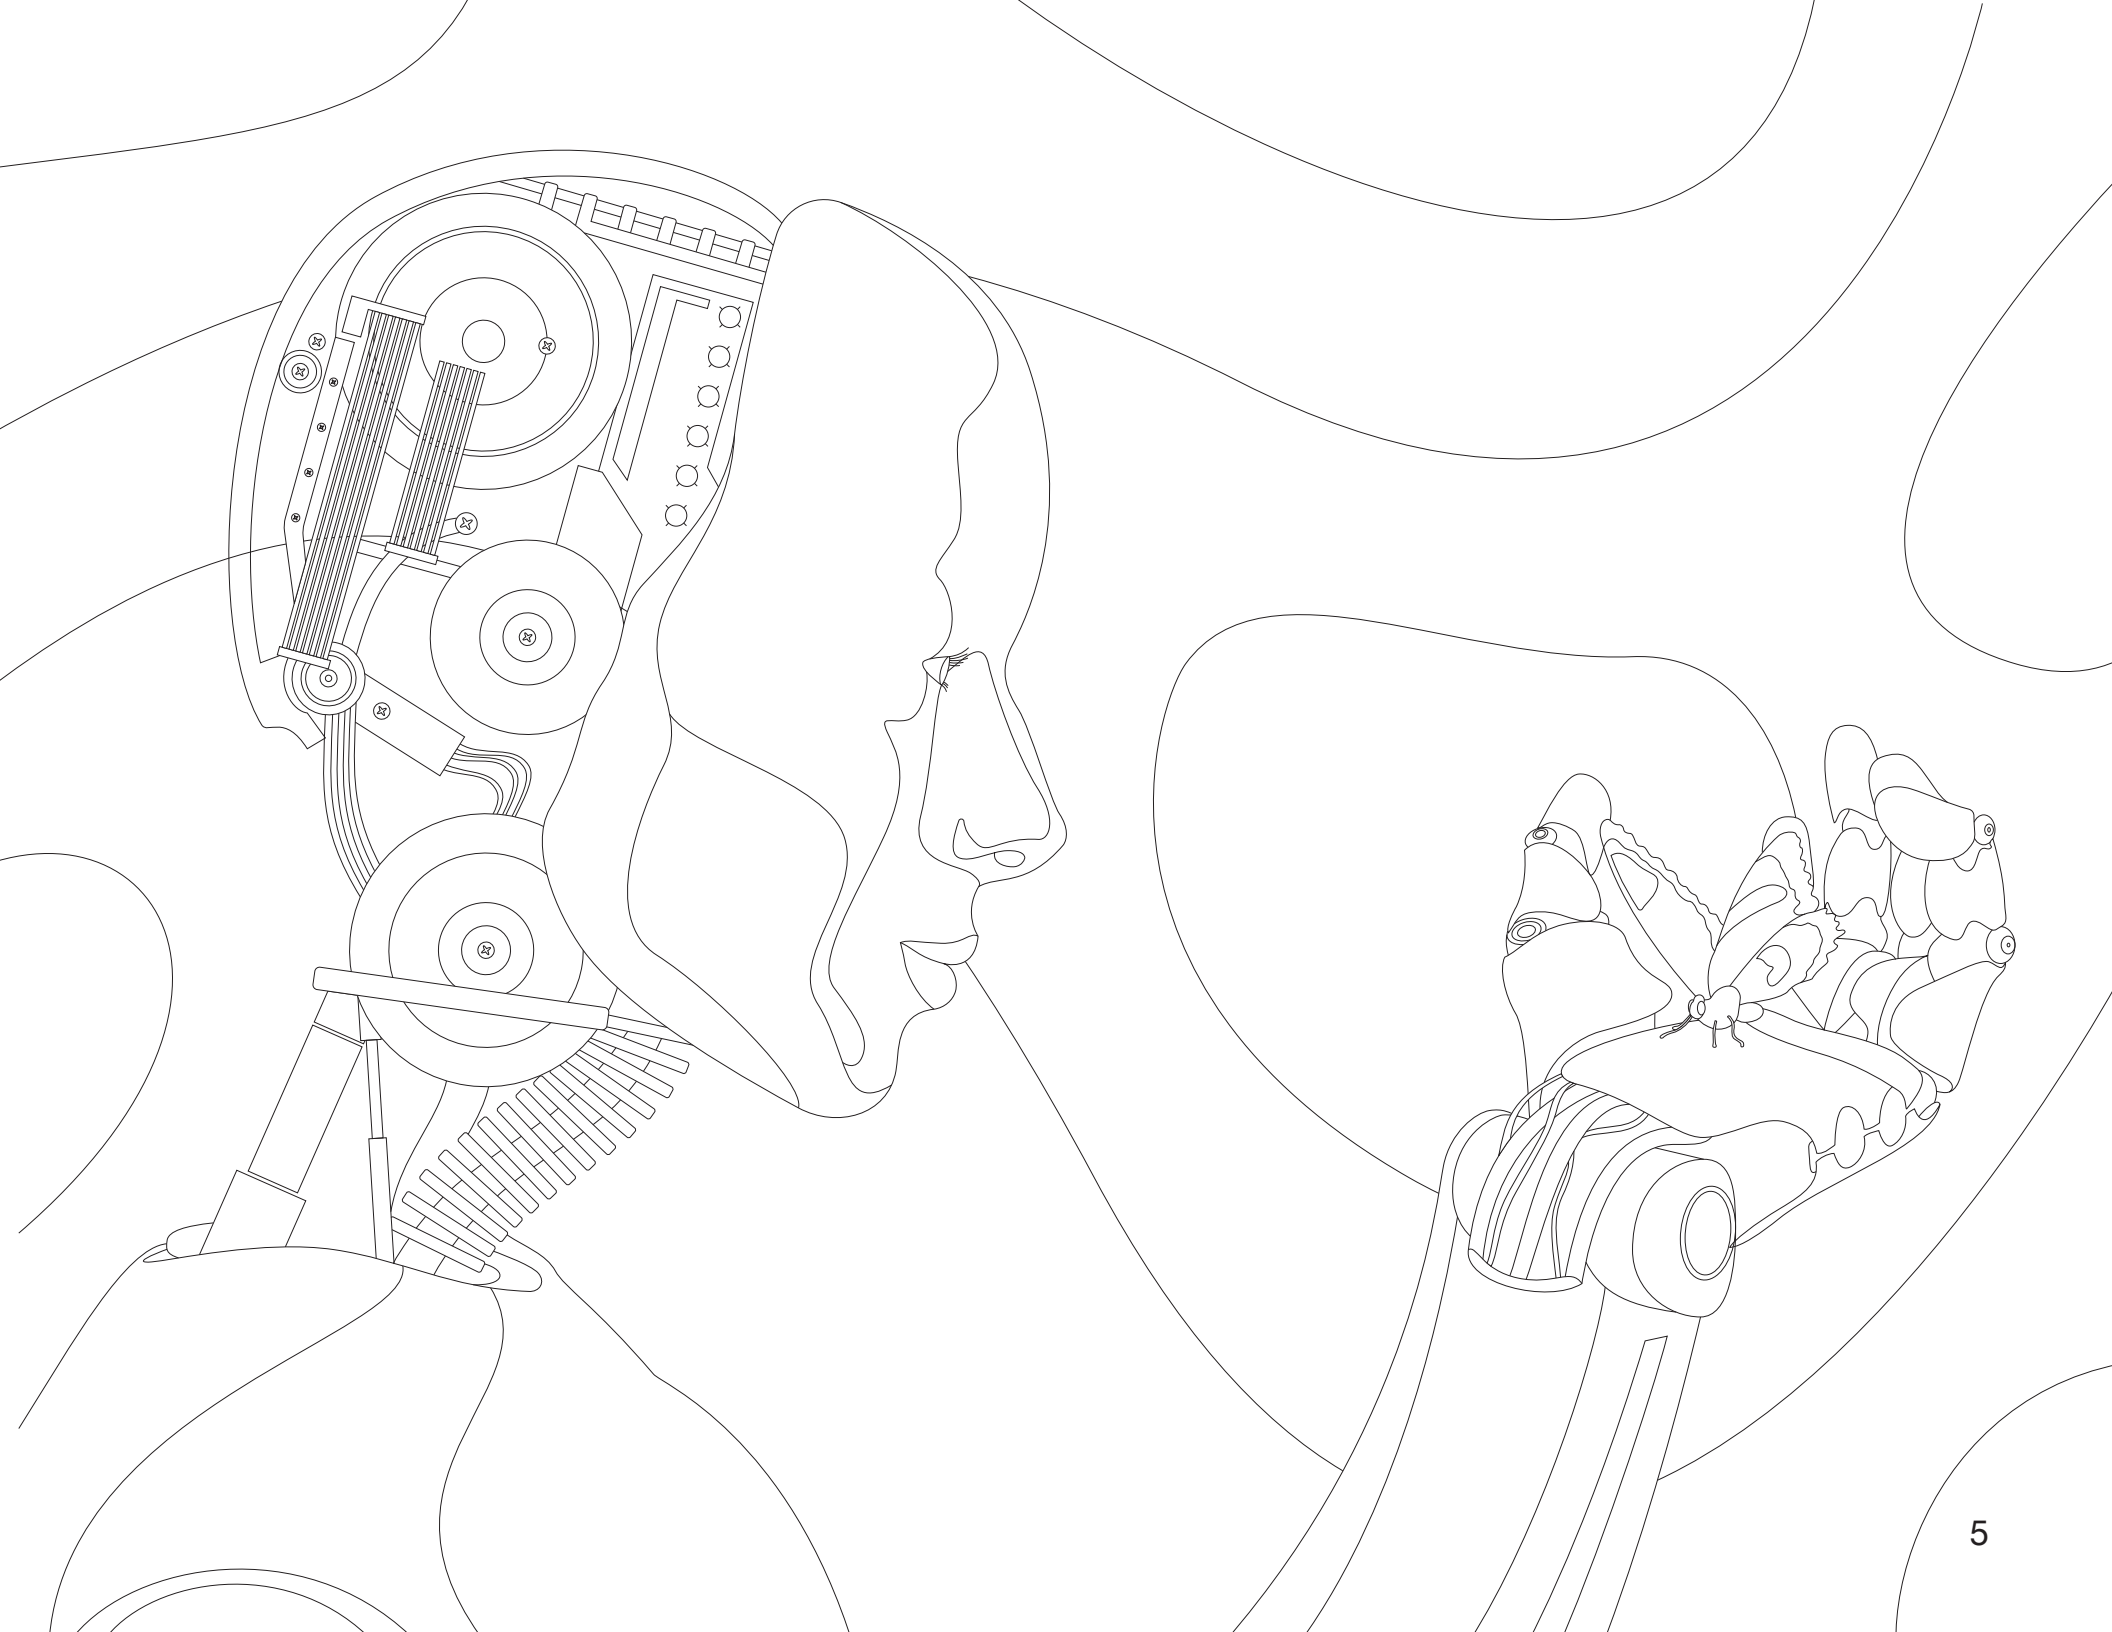

ASML enables groundbreaking technology to solve some of humanity's toughest challenges.

**8**

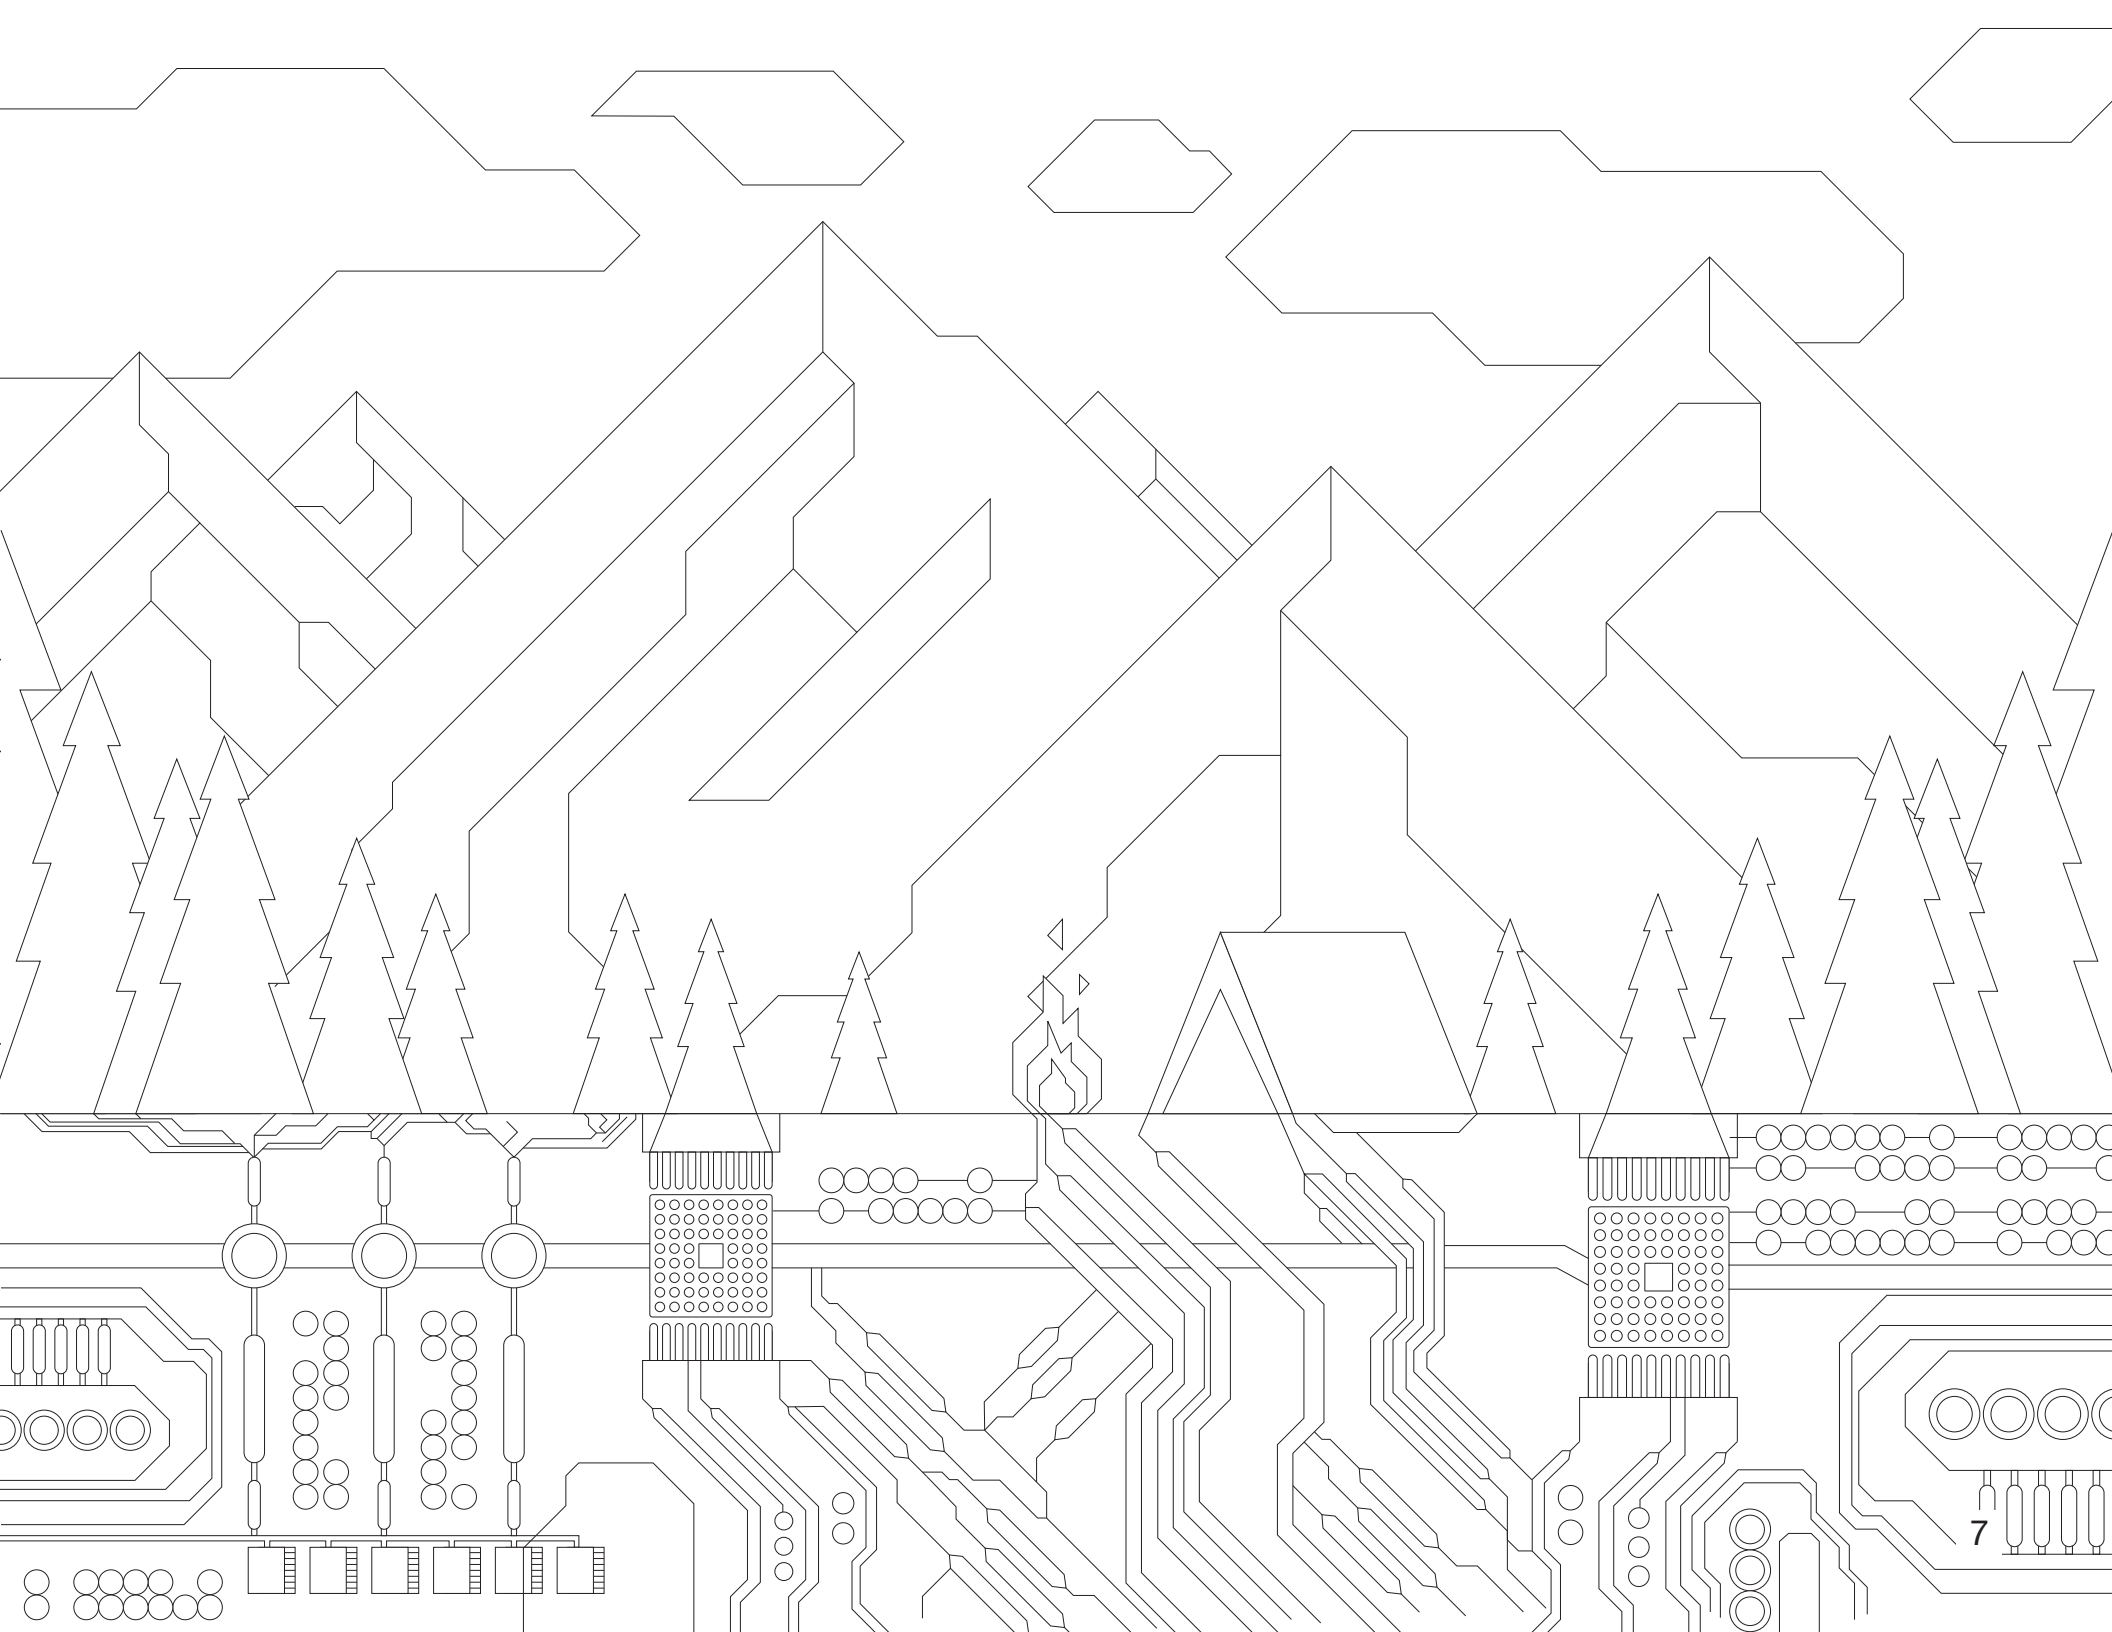

## **A rebel, an innovator**

Just like it is at ASML, Vincent Van Gogh was inspired by light, which was central to his work. From modern art to the modern world, Van Gogh and ASML both lead.

**Do work that  
makes a difference**

**Be a part of the tech company  
that's a part of everything**

Explore careers at ASML and join the high-tech semiconductor industry, where you can work on technology that can change the world.
